CILS LAB DAY

"Come to the CILS lab day Event and learn about the amazing research happening here!"

DATE
January 22nd

TIME
2:30 PM - 4:00 PM

LOCATION
Carnegie Hall, Rm 113

🍕 Pizza and Refreshments will be provided! ☕

Student Presentations (10 min each)

Mohamed Khattab
Memory-Efficient Quantization-Aware Optimization for FHE-Based Mammogram Classification

Kylie DeViller
From Seed to Algorithm: A Comparative Analysis of GWAS and Random Forest for Genomic Trait Prediction in Apple

Mohammod Ehsanul Haque
Enhancing Intrusion Detection Systems With CNN+LSTM

Rosemary Etu-Efeotor
Interpretable Dementia Detection using CNN's and SHAP on MRIs

Yasmine Choukrane
Interpretability Guided Neural Architecture Search

Brendan Toscano
Using Machine Learning to Evaluate LLM Debugging Hints for Programming Education

OPEN TO ALL STUDENTS AND FACULTY

Join us for demonstrations, posters, and discussions.
